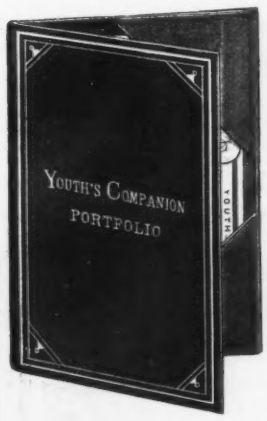
How to Get New Subscribers.

To subscribers who wish to try to get new names, and obtain some of the valuable Presents and Premiums given in this List, we offer the following suggestions:—



Such aids as you may need can be furnished by us for ten cents in stamps, consisting of a package of COMPANIONS, to be used as specimens, also a pamphlet showing "How to Get New Subscribers," Subscription Blanks, Directed Envelopes, Announcements, and a number of Circulars, and a small

Portfolio.

The picture represents the Portfolio when partially open, exposing to view the convenient "pockets" for holding the "Helps" for obtaining new subscribers. When open it is 7½x10 in. in size. It has stiff covers, with cloth binding.

Having Received the Portfolio,

Study carefully the instructions given, then visit the families in your vicinity who are not subscribers to the COMPANION, but whom you think ought to take it.

Begin in a **systematic manner** to visit each family, following the directions given in the pamphlet.

Last Year's Presents.

For want of space we do not publish in this issue of the COMPANION the names of the 360 subscribers who obtained the Presents given last year. We have already sent a copy of this list to each of our subscribers, and will furnish a copy to any one upon receipt of two two-cent stamps.

How to Send Money by Mail.

There are four ways by which money, in payment for the COMPANION, can be sent by mail, *at our risk*—by a **Post-Office Money Order;** by a **Registered Letter,** by a **Bank Draft,** or by **Express Order.**

Money Orders can be Obtained at the Post-offices of most of the large towns. For the small amount of eight cents you can buy a Money-Order upon the Boston Post-Office, for the amount you wish to send us, and **we will be responsible** for its safe arrival.

Registered Letters.—If a Money Order Post-Office is not within your reach, ask the Postmaster of your town to register the letter you wish to send us. Then, if the letter is lost or stolen, it can be traced. You can send money in this way **at our risk** —*provided* there is no Money Order Post-Office near you.

Bank Drafts.—A Draft upon any city bank we can use, if it is made payable to the order of Perry Mason & Co. We prefer Drafts upon Boston, New York, or Chicago Banks. Money can be sent this way **at our risk.**

We cannot be responsible for money sent in letters in any other than by one of the four ways mentioned above. **If you send your money in any other way, you must do it at your own risk.**

Postal Notes can be obtained for sums less than five dollars, at all Post-Office Money Order Offices. For a Postal Note to pay your subscription to the COMPANION you must pay three cents, and the Postal Note must be enclosed in your letter to us. These Postal Notes are payable to bearer, and therefore **are not so safe as a Money Order. Subscribers must therefore assume the risk of sending them.**

SILVER SHOULD NEVER be sent through the mail. It is almost sure to wear a hole through the envelope and be lost; or else be stolen. Whoever sends silver to us in a letter must do it at his own risk.

POSTAGE STAMPS will NOT be received in payment for your Subscription. If sent, they will be returned.

When you wish the paper stopped, notify us by **Postal Card.** Be sure and do this, and thus save yourself and us annoyance. Of course you will also be sure that all arrearages are paid

Goods Offered for Sale.

Any person, whether a subscriber or not, can purchase any article in this List for the price mentioned. Cash must accompany the order in all cases. We have no facilities for keeping open account.

A Caution Repeated.

When you wish to discontinue the COMPANION, please **notify us** by Postal Card **two weeks in advance** of the time your subscription will expire. This will be a convenience to us, and it will save you annoyance.

Special Instructions to those who Obtain New Subscribers.

To Whom Premiums Are Given.

The Premiums are offered *only to subscribers* to the COMPANION. They are given by the Publishers **for** new subscribers, **not to** new subscribers.

They are not offered to persons who do not take the paper to induce them to subscribe for it.

No person sending his own name, or that of any member of his own family, as a new subscriber to the COMPANION, can receive a premium for it.

Any person after subscribing for the COMPANION, and paying $1.75, can then receive premiums for all the new subscribers he may send us.

If any person will first subscribe for the paper, and then use his time and influence to obtain other new names, he will then be entitled to premiums for as many new subscribers as he may send us.

The Premiums are offered only to subscribers to the paper, to induce them to obtain new names for its subscription list—and they are given to pay for the time spent in getting these new names.

Special.—To all correspondence with Perry Mason & Co., where premiums are asked for, please sign the name of the member of the family that is printed on the COMPANION each week.

Transfer of Subscriptions,

From one to another Member of the same Family.

If a boy or girl in a family has received the COMPANION this year, and it is decided that the paper shall come next year in the name of a brother or sister in the same family, or in the name of any other member, it must be remembered that this is **only a transfer and not a new subscription.** We cannot allow a Premium for it. This change of names on our list does not *increase* the number of our subscribers. Our premiums are given for work which shall increase our list of subscribers.

Why We Offer Premiums.

Because, in seeking to extend the circulation of the COMPANION, its Publishers find that the best Agents they can interest in the work are its SUBSCRIBERS, who know its character, and can speak from a personal knowledge of its merits.

For this reason, the Premiums are offered *only* to subscribers to the paper, and are given wholly as payment for work done. *By work done*, we mean this: If a subscriber asks his friends or neighbors to take the COMPANION, recommends it, and by his solicitations succeeds in inducing one or more of them to take it, we call that *work done*, and are willing to pay for it.

Special Instructions.

Send your new names as you get them. Always send the payment for each subscription with the name. We do not receive a new subscription unless payment is made at the time the new name is sent.

You can send for a Premium for each new subscriber as you send us the names, or you can complete your list and then select your premiums, as you may prefer. No premium will be given for less than a full year's subscription.

You must not delay ordering all premiums due you longer than a year after the new names are sent. We cannot promise to send the premiums after this time.

If you send for your Premiums after your list is completed, be sure and send us the name and address of each new subscriber, and the date when you sent each name, that we may know if they all have been received by us, and been entered upon our books correctly.

Subscriptions to the Companion can commence at any time during the year.

Goods by Express, Letters of Inquiry, &c.

Premiums and Goods by Express.—Sometimes we can send goods more safely by express than by mail. Please inquire at the express office if you do not find them at the post-office.

Letters of Inquiry, Questions Asked.—Our friends will insure a more prompt reply to all such letters if they will enclose either an envelope stamped and addressed to themselves, or an addressed postal card.

Money to Register Goods.—If you reside in far-off places, and wish to feel sure that the goods you order will reach you safely, if you will send 10 cents extra for each article you order, we will register each package.

When you renew your subscription, or send us new subscribers, or order premiums, *be sure* and sign your letter with the name that is printed on your COMPANION each week, and also give the name of the post-office from which you take the paper. **This is necessary** for us to find your name on our books.

How to Complain.

Delays in Receiving Premiums.—If the goods which you have ordered are not received by return of mail or express, do not feel **unduly anxious, or write at once.** Wait five, ten or fifteen days, according to the distance you are from Boston, and then write us a letter. When you write, follow these rules carefully:—

Give the date when you mailed your order.

Did it contain New Subscribers? If so, give names.

Write as near as possible an exact copy of your first order.

Tell us the amount of money you enclosed, and tell us if it was in a money order, bank draft, or express order. If either of these, give us the date, number and amount of each.

If you registered your first letter, give us the date of your receipt. This information is necessary for us to find your first order.

PREMIUMS.

Any person who may not obtain new subscribers, but may **wish to purchase** articles offered in this List, can have them at the prices named as the value of each article. We keep the articles on hand throughout the year. They can be obtained at any time. Preserve this List for reference.

Subscribers who send us new names and do not order premiums at the time, will have the names placed to their credit, but they must take Premiums on them some time within one year from date of sending the names. **An Exception.** If at any time during the year we should make a Special Limited Offer of Premiums for Subscribers to be obtained between certain dates, no names then standing to your credit can be applied to the Special Offer.

Payment of Postage.

Do not forget to send the Postage on your Premiums and Goods ordered. We cannot agree to forward the Articles unless the Postage has been received. **When you purchase your Money Order, include the amount of Postage, and if you send "additional" money for any purpose, include this also in the Postal Money Order,** and thus **avoid sending stamps.**

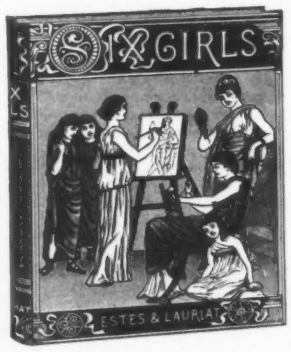
For one new name, and 10 cts. extra.

This book gives the home-life of six girls; the oldest of them—Beatrice—is a favorite; the next girl pretty as a picture, with a fine voice for singing; another is an artist; then come the twins, Kitty and Kat, who are very natural girls; and lastly little Jean, with her flower-like face and poor crooked back.



To help and guide these young lives was the dear loving mother, who called them her steps, and the strong, helpful father, who romped and played, or read and studied, with them; and called Kittie and Kat "his boys." The Queen's Body Guard.—A Story of American Life for Girls.

Given for one new name, and 10 cts. additional.

This is Margaret Vandegrift's best book. It is full of incident, natural in plot, rich in pathos, and unsurpassed in moral teaching. We think it as fascinating and helpful as the famous books by Sophie May.

Mrs. Stanley is left a widow, possessing nothing but her "body guard" of seven healthy and loving children, — three boys and four girls. They hold a "council of war," the mother as "queen," and the children her "body guards." The Book tells the story of the battles fought and victories won as this family kept together. The reader will find love, romance and adventure in this intensely fascinating and helpful story.

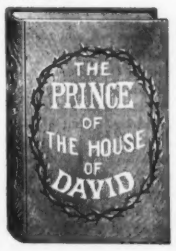
The Prince of the House of David.

The Throne of David. The Pillar of Fire.

Either volume given for two new names, or for one new name, and 40 cts. additional.



Next to The Pilgrim's Progress and Uncle Tom's Cabin, these books have probably had the largest sale of any in this country. "The Prince of the House of David, or Three Years in the Holy City," consists of a series of letters of Adina, a Jewess of Alexandria, supposed to be sojourning in Jerusalem in the days of Herod, addressed to her father, a wealthy Jew in Egypt. These letters relate, as if by an eye-witness, all the scenes and wonderful incidents in the life of Jesus of Nazareth.

The Throne of David is a collection of similar letters upon the times of King David.

The Pillar of Fire gives the romance of Israel in bondage. No works of fiction can be half as fascinating. We are glad to place these books within easy reach of our readers.

Either volume given for two new names, or for one new name, and 40 cts. additional. For sale by us for $1.75 each. **Postage and packing, 15 cts. per vol.,** when sent as a premium or purchased.

GRAND COMBINATION PREMIUM.

Our New Brilliant Magic Lantern and Polyoptacon Attachment.

Given for One New Name, and 40 cts. additional.

Every Boy and Girl

should take advantage of this grand Combination Premium, as it will afford a great amount of PLEASURE, ENTERTAINMENT and INSTRUCTION. No better Magic Lantern can be purchased at the stores for $8 each, and no better Polyoptacon can be purchased for $3 each.

First, We Will Describe the Magic Lantern.

Six years ago we invented the Ruby Magic Lantern, of which we have since used over 50,000. The Magic Lantern we now offer combines new principles which add more than **double the power and brilliancy.**

The Law Relating to the Intensity of Light,

is that the light diminishes according to the square of the distance from the luminous body that produces it. The nearer, then, that the condenser can be placed to the flame of the lamp, the more **intense will be the light.** It is this law that the inventor of our Brilliant Magic Lantern has carried out, and with **wonderful results.**

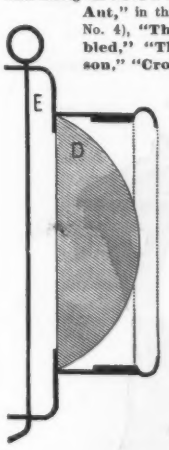
Beside the Brilliant Light

of our new Magic Lantern, the following improvements will be found: The **Micrometer Screw Focal Adjuster**, the **Brass Focussing Tubes**, the **Metallic Draft Chimney, Safety Lamp,** and **Improved Reflector.** These improvements, in combination with the **Fine French Lenses,** make a Magic Lantern capable of illuminating **a circle from six to eight feet in diameter.**

Our Magic Lantern Outfit

consists of our **HIGH POWER BRILLIANT MAGIC LANTERN, 14 Beautiful Views on Glass** (photographed), **10 German Colored Views on Glass** (hand-painted), **72 Exhibition Tickets, 1 Lecture Book** (describing views), **1 Large Show Bill, and Complete Instructions.** All packed in a strong wood box.

Among the Views are accurate portraits of **LONGFELLOW, WHITTIER, BRYANT, HOLMES** and **TENNYSON,** with a short sketch of the life of each. We also include among the views a story of **"The Lazy Ant,"** in three chapters (see cut No. 4), **"The Gobbler Gobbled," "The Singing Lesson," "Crossing the Ferry," "Welcome"** and **"Good-Night."**

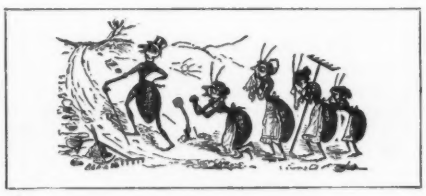


These Views, with the descriptive lecture found in the book, will furnish a most delightful evening's entertainment.

The ten German Views we give are very pleasing; they are beautifully painted in bright colors, and represent a variety of subjects, both comic and landscape.

We also include our Polyoptacon, by which ordinary photographs can be thrown on the screen enlarged. **This is a great offer.**

Showing "Brilliant Magic" Lantern One-Fourth Size.



The Lazy Ant, in Three Chapters.

Description of the Polyoptacon.

Many of our subscribers have no doubt seen advertised in the papers an instrument called by **various names**, such as the Polyoptacon, a Wonder Camera, and Megascope, all of which are the same. This is an instrument for reflecting on the screen any opaque object, such as a photograph, chromo, drawing, &c.

For the Past Three Years

we have been at work on an instrument of this kind for our subscribers. This is now perfected and patented. Our object has been to produce an instrument which should be low in price yet convenient in form and powerful in its operations.

How Does our Polyoptacon Differ from the Magic Lantern?

In general form it differs but slightly. The same body, lenses, lamp, &c., are used. Instead, however, of making use of pictures mounted on glass slides, ordinary photographs, Christmas cards and pictures are used. Objects, such as watches, flowers, mineral specimens, &c., can be thrown on the screen in all their natural color and beauty.

Showing Magic Lantern with Polyoptacon Attachment.

Ordinary Photographs of Friends

taken from your album can be thrown on the screen **enlarged,** thus causing them to appear more life-like than Crayon Portraits. This does no harm to the photographs used.

It will add Interest

to an evening's entertainment to give your friends an invitation to bring with them photographs of relations, which you will enlarge for them on the screen. Many persons would come to your entertainment for this purpose alone.

We have spent many a pleasant evening while the photographs of friends were being reflected on the screen. At such times one can almost imagine that friends parted from the family circle had "come to visit me once more."

We Include

with each Polyoptacon a Series of 30 Comic Card Views, **"What Hans Saw at the German Fair,"** also a Comic Series called **"Hans Breitmann's Party,"** 30 Views, and one Series, **"Children at Play."**

Home Entertainments.

The large picture suggests the pleasant evenings in store for the boys and girls who may obtain this combined Magic Lantern and Polyoptacon Outfit. The following, from Mrs. Bentley, ought to be very suggestive to parents who believe in making home attractive to their children:

My Lantern arrived all right, and am much pleased with it. I think no better **amusement** can be afforded to the children of a family than a Magic Lantern Exhibition at home.—F. O. BENTLEY.

How Money May Be Earned.

You will notice that we give with the Magic Lantern 72 Exhibition Tickets; we will also give a large Show Bill. Having become familiar with your Magic Lantern and Views, decide on the most convenient evening for the exhibition. Now let your "business manager" announce the entertainment, and sell the tickets to friends and neighbors.

Your mother's parlor or dining-room will make a very convenient Hall for your entertainment. Thousands of our subscribers have made various sums of money in this way. With a little **business push,** almost any boy or girl ought to pay for the Magic Lantern from the first exhibition. We would suggest that **SUNDAY SCHOOL TEACHERS** will find this Magic Lantern very useful in Sunday School work. The **Bible Views** we make are very interesting and instructive, so also are our **Views on Astronomy, &c., &c.**

A POPULAR HOME INDUSTRY.

Our New Kensington Art Embroidery Stamping Outfit.

Given for only ONE new name.

HOME INDUSTRIES.

We believe in making home the most attractive spot in the world. We believe, too, that the boys and girls of our homes should be taught to "do something" that will develop in them a taste for the beautiful, a love for work, and that will tend to give them a knowledge of some of the mechanical arts.

We know of nothing in this line so popular and so profitable for young ladies as **Kensington Art Embroidery.** The publishers of the YOUTH'S COMPANION were the first to popularize and introduce this art in America.

No. 3.

FELT TIDY 14x16 INCHES.

Stamped ready for working. Given with each Outfit. Tidy for sale separately for 25 cts., postage paid.

COLORS OF FLOWERS.

This valuable Book we now include with each Stamping Outfit. This new Book contains illustrations of 37 popular flowers, with a description of the colors and shades of silk that should be used in working them. In the winter it is difficult to obtain natural flowers for embroidery patterns.

The Book also contains directions for making many beautiful articles for home decoration. We sell the book separately, postage paid, for 35 cts.

We have improved our popular **Stamping Outfit** each season for the past five years. The Outfit we now give contains all new and larger patterns than formerly offered. Art Embroidery and Stamping is the most

Valuable and Popular Home Industry

Ever engaged in by young ladies. It should become a part of every young lady's *practical* home education.

Very few young ladies are able to originate and draw designs appropriate for art needle-work. We therefore arrange with an artist to design for us appropriate patterns for this beautiful art-work.

By means of a machine these designs are perforated in parchment. You thus have a stencil of the pattern.

By means of the Stamping Powder, the stencils, and a warm flatiron, you transfer the design to the material you wish to work. **The cut shows** a young lady in the act of **transferring** patterns to the cloths.

What Can I Do With the Outfit?

First—You can learn the **Art** of the celebrated **Kensington Embroidery.** *Second*—You can learn the Art of **Perforated Stamping.** *Third*—You can do your own Stamping. *Fourth*—You can adorn your homes with hundreds of beautiful articles in Kensington Embroidery. *Fifth*—You can do Kensington Embroidery for others. *Sixth*—You can teach the Art of Kensington Embroidery and Stamping to others. *Seventh*—You can do Stamping for others. Materials for Kensington Art Painting.

GIVEN FOR ONE NEW NAME.

This beautiful art was first introduced to the attention of the public by the YOUTH'S COMPANION last season.

On account of the beauty of the work, and the ease with which it is done, Kensington Art Painting has become one of the most popular home industries for ladies.

The Secrets of the Art.

Formerly the secrets of the art were carefully guarded. The charge for teaching it was $5. This did not include material for the work.

The increasing interest in this fascinating work has led us to greatly improve the outfit. Every lady who has become interested in Kensington Art Embroidery will find this art interesting and profitable.

With this Outfit

you can paint most beautiful sprays of flowers, vines, bouquets, &c., on plush, silk, velvet, felt and other materials. The work when done is exceedingly beautiful and durable.

The Outfit consists of Parchment Stamping Patterns of beautiful variety, Stamping Powder, Pad, Six Tubes of best Oil Color Paints, Brush, Four Kensington Art Painting Pens, One Felt Banner, 7x12, already stamped for painting, and a Complete Illustrated Book of Instructions.

Kensington Painting, as the name indicates, is a process of applying paint to the surface of fabrics in such a manner as to somewhat resemble the stitches of Kensington Embroidery.

No Previous Knowledge Required.

It is very simply, easily and rapidly done, and is much less expensive than embroidery. It requires no previous knowledge of painting, only a general knowledge of the blending of shades as taught for Kensington needlework. After the fundamental idea, as described in book of instructions, is caught, no further instruction need be given.

The Designs.

The patterns to be painted should be stamped on the material, the same as for embroidery. Large flowers and open designs—such as roses, daisies, tulips, &c.—are among the best for beginners. The outfit contains some very beautiful designs.

We give this complete outfit for only one new name. Price, $1. **Postage and packing, 15 cts.,** when sent as a premium or purchased.

A RARE PRIZE FOR BOYS.

The Weeden Upright Steam Engine and Village Blacksmith.

Given for only One New Name, and 15 Cents additional.

This is the most perfect and beautiful toy Steam Engine we have ever seen. The picture which represents this wonderful Engine is only 6½ inches high by 3 in diameter. The Engine itself is 8½x4¼ inches in size.

The Weeden Engine is 8½ in. high and 4¼ in. in diameter.

We have seen and examined most, if not all, of the toy Steam Engines made in Europe and in this country. Not one of them will compare in beauty and perfection to ours, although some of them sell as high as $6 each.

How We Made the Engine.

1st. We secured the services of a well-known mechanical expert (Mr. Weeden) to devise, perfect and manufacture for us our beautiful Engine. It cost over $1000 for experimental work, special tools, etc., before the Engine was perfect.

2d. Large orders were given for the Engine, not less than 10,000 being manufactured at one time.

The Village Blacksmith.

Description of Engine.

Its size is 8½x4¼ inches. The Boiler, Fire-Box and Smoke-Stack are black. The Driving Wheel, Cylinder, Steam-Whistle, Safety-Valve and Pulley Wheel are all **brass-plated.** The Ventilating openings, top of Smoke-Stack, Throttle-Valve, Steam-Whistle Valve and Safety-Valve Ball are painted red.

Safety-Valve. The Engine has a perfect-working Safety-Valve, which makes it impossible for the boiler to explode.

Steam-Whistle. By referring to the cut, you will notice the location of the Steam-Whistle. You will also see the valve by which the whistle is operated.

The Throttle-Valve. One important feature of this Engine is its Throttle-Valve. No other amateur Engine has this feature.

The Fire-Box. The door opening into the Fire-Box has perfect hinges and catch. The patent **Lamp** for getting up steam is attached to inner side of the door. When you open the door you "draw the fire;" shut the door and the lamp is in position under the boiler.

The Power of the Engine. The engine has sufficient power for running toy machinery. So perfectly and so accurately is this Engine made that the **screw-nuts** on the cylinder-head and the **rivet-heads** on the boiler and fire-box are imitated (see cut).

A Mechanical Curiosity. This Engine is not only interesting to boys, but as an object of **mechanical beauty and perfection** it has great interest to **engineers** and **practical machinists.**

THE VILLAGE BLACKSMITH.

A MECHANICAL TOY to be run by the WEEDEN UPRIGHT STEAM ENGINE.

This new Mechanical Toy is a working model of the interior of a Village Blacksmith's shop. The various tools usually found therein, together with the anvil, fire-place, bellows, &c., are all handsomely printed in colors. The mechanical arrangement is so constructed that when attached to the Weeden Engine the quiet scene instantly changes to one of *activity.* The Village Blacksmith hammers away upon his anvil, and the large bellows over the fire-place is inflated by the boy as he pulls upon its lever.

We offer the Engine and Village Blacksmith for only **one new name,** and 15 cts. additional. **Postage and packing, 45 cts.,** when sent as a premium. We offer the Engine for sale for $1.25, and 40 cts. additional for postage and packing; and the Village Blacksmith for 50 cents, and 10 cts. additional for postage and packing.

U. S. Naval Observatory, Washington, D. C.

"The Waterbury Watch has been subjected to critical tests by me at the observatory during the past month I have got it down to a rate of about a minute and a half to two minutes per month, and expect to get a better rate after further regulating. It has never stopped or shown any indication of fault during this time."—W. F. GARDNER.

Warner Observatory, Rochester, N. Y.

"It gives me pleasure to express my appreciation not only of the beautiful appearance, but also of the time-keeping qualities, of the Waterbury Watch. During the past three years I have compared the running of many of them with not only a Howard and a first-class watch, but also during the last two years with the mean time chronometer of the Warner Observatory.

"It is certainly a marvellous advance in the science of horology when a warranted correct time-keeping Watch can be manufactured and sold at so low a price."—LEWIS SWIFT, F. R. A. S., Director.

From Thos. A. Edison.

I have used the Waterbury Watch for some time, and find that it is the only one that will keep reasonably perfect time when used around powerful dynamo machines.—THOS. A. EDISON.

I received my Waterbury Watch last September. It is as good a Watch for time as any. My father has a $20 and my brother a $17 Watch, but my $3.50 Waterbury keeps as good time as either.—L. T. GABLE, Butler, Mo.

About the Watch.

For five years this Watch has occupied a prominent position in our Premium List. During this time more than 60,000 of these excellent Watches have found their way into the pockets of over 60,000 of our subscribers, with the most satisfactory results.

It is certainly wonderful that a Watch selling for only $3.50 will wear for years and keep accurate time. Already the reputation of the Waterbury Watch has become so well established that it now requires about 1,200 per day to supply the immense demand for them.

From a College Professor.

At one time I carried a $350 gold Watch, but until recently the Waterbury gave better satisfaction than the other. I am principal of the Normal Department of the Central Tennessee College, and as such have charge of the time in the school. My Waterbury has kept better time than any other timepiece in the building. My brother has carried one of the Watches for three years, and is delighted with it. It keeps perfect time. I trust you will pardon my writing as I have, but I wished you to understand that I value my Watch highly, and, if possible, desire it repaired.—FRANK H. CURTIS, Batavia, Genesee County, N. Y.

The large cut illustrates one of the amusing Tricks in the Cabinet. Let us describe it to you as seen by the audience:

Magical Flow of Waters.

MAGICAL FLOW OF WATERS.

An empty pitcher, bottle or tumbler and tin funnel are shown to the audience for their examination. These articles are inspected and pronounced by the audience to be **empty** and **dry.** 'Now, gentlemen and ladies," says the magician, "I propose to produce water by the magic art from these very utensils which **you yourselves have just pronounced empty and perfectly dry."** Two from the audience are now invited to step forward and aid in the performance. "Now watch me closely, and at the magic word of command will you, sir, pour from your empty pitcher into the funnel. One! *two!* THREE! PASS!" Wonderful! Forthwith the tumbler is at once filled with pure water, and not even the assistants can see how the trick is done.

THE MAGIC COIN.

Any person from the audience may spin a coin on the table. The magician, while blindfolded, can tell whether the coin falls head or tail up. A dime is borrowed from some one in the audience, and is marked by the owner. It is then held in the hand by the magician in full view of all. At the magic word it **vanishes** from sight. Some one from the audience is invited to select an apple or orange from the table. On cutting into the fruit, the marked dime is discovered and returned to the owner.

MARVELLOUS SHOWER OF CANDY.

A handkerchief is borrowed from the audience, from which at once a shower of candy is produced, to the wonder ment and delight of all.

THE BURNT HANDKERCHIEF.

A tin canister is produced and shown to the audience, who pronounce it empty. A lady's handkerchief is borrowed and placed in the canister. To the astonishment of the lady, you place fire in the canister. The contents blaze out for a few moments. Companion Outfit of Crystal Dyes.

Fifteen Colors Given for One New Name.

WHY WE OFFER THIS OUTFIT.

For the past twelve years it has been a purpose with us to place within the reach of our subscribers practical and useful **home industries.**

We have found by experience that the young people —as well as their parents—appreciate our efforts in this direction. Nearly all of the **home industries,** such as Scroll Sawing and Carving, Kensington Art-Needlework, Kensington Art-Painting, Repoussé Work, &c., &c., originated at this office.

This Outfit for dyeing is another industry which we think will be useful and popular.

DESCRIPTION OF OUTFIT.

The Crystal Dye Outfit has been prepared by an experienced and skilful chemist for the use of our subscribers. It is highly recommended, and will be found very superior for family use. There are fifteen different colors in this Outfit. Each color is packed in a solid turned wood box, and will dye from one to two pounds of material, the depth of color depending entirely upon the quantity of goods dyed. By a combination of these colors many shades and tints can be produced.

A PROFITABLE BUSINESS.

In addition to the work that can be done with this Outfit in your own household, orders from friends and neighbors can also be easily secured.

Articles that have been laid aside because soiled or faded, children's garments, ribbons, hoods, shawls, hosiery, feathers, scarfs, carpet-rags and yarn, are only a few of the many articles to which the Crystal Dyes can be applied. Boys, as well as girls, can become expert dyers. Now

WHAT CAN I DO WITH THIS OUTFIT?

1. Save money by redyeing your faded clothing.
2. Earn money by dyeing for your friends.

3. With this Outfit you can make fifteen most beautiful colored Writing Inks. This is a suggestion which bright boys will appreciate. Some boys who undertake the ink business may make it pay them well.

4. Save the money thus earned, and gradually extend and enlarge your operations, until a permanent business is established.

5. This is not an impossibility. Nearly all profitable enterprises can be traced back to small beginnings.

The Crystal Dye Outfit consists of **15 Boxes Dye, 1 Card Sample Colors, 1 Poster, 1 Manual on Dyeing, 1 Package Business Cards** with blank space for insertion of name.

All given for one new name. Price of above Outfit, $1. **Postage and packing, 25 cts.,** when sent as a premium or purchased.

A CHARMING, RELIABLE GUIDE-BOOK, IS

Kent's New Commentary.

MANUAL FOR YOUNG MEN.

It ought to be read by every young man before he leaves the paternal roof. Everybody should read it. Its endorsers are the best and most competent critics. Judges of the Supreme Bench, Presidents of Colleges, Lawyers, Physicians, Clergymen, Superintendents of public instruction, Teachers of renown, Merchants, Mechanics, Business Men of all trades and professions, to the "boy on the farm," all are unanimous in this one verdict: "The best book I ever read. Wish it could be placed in the hands of every young man in the land." Why? Because it has been written **expressly for young men**, by one who **knows** what it is to be a young man, to **fight one's way against great odds.** Bristling all over with stirring incidents, striking illustrations; charms the reader, holding his rapt attention from the first to the last page. It deals with living, vital issues. To every young man it means SUCCESS or FAILURE. Parents cannot place in the hands of a son a better work to guide him along the sure road to an honorable position with credit. It is from the want of just such a GUIDE-BOOK that so many young men make shipwreck of all of life that's worth living.

The Verdict of a Judge on the Bench:

My Dear Sir,—I just this morning received the copy of your "New Commentary for Young Men." From the cursory inspection I have been able to give it, I AM MORE THAN DELIGHTED WITH ITS CONTENTS.

Very sincerely yours, G. L. REINHARD.

A super holiday or birthday memento. The new illustrated edition, 314 pages, elegantly bound, Muslin, **$1**; Russia, **$2**. Sent postpaid to any address. **C. H. KENT, Davenport, Iowa**, is the publisher. He has mailed many copies for anxious mothers, to "my boy away from home. Write his name on the tablet, 'From Mother.'" It's a god-send to many a tried, tempted young man to know he is not forgotten by the "old folks at home." Will he read it? Yes, every word of it. Sunday School Superintendents, Teachers, will find the Manual a rare work to give to young men in whose welfare they are especially interested. **It's an investment that will pay in grand results. TRY IT.**

IMITATION IS THE SINCEREST FLATTERY.

Owing to the rush of business in our factory, and considering the fact that we have difficulty in manufacturing our goods fast enough to supply the demand for the James Means $3 Shoe, and owing also to the fact that so much space has been taken by others, we shall content ourselves with a very modest little advertisement in this Premium List.

We cannot prevent other people from copying the sentences which we have used in our advertisements during past years, but it is quite impossible for them to copy the merits of our goods, although they may attempt to imitate our system of business.

The readers of the *Companion* know us well, and undoubtedly they frequently recognize our familiar sentences being masqueraded under other names.

Caution! Some dealers recommend inferior goods in order to make a larger profit. This is the *original* $3 Shoe. Beware of imitations, which acknowledge their own inferiority by attempting to build upon the reputation of the original. *You cannot* be sure of getting the *genuine* article unless you are careful to examine and see that this stamp appears plainly on the soles.

JAMES MEANS $3 SHOE.

This Shoe for gentlemen is made of finest Tannery Calf Skin stitched with large Silk Machine Twist, and is unequalled in Durability, Comfort, and Appearance. It is made in various widths to fit any foot. It is made with either broad or narrow toes. Made in Button, Congress and Lace. The quality of this Shoe has won for it so high a place in public estimation, that it stands to-day *absolutely without a rival.* Wherever you live, this Shoe is within your reach; ask your dealer for it, and if he cannot supply you with a good fit, send your address on postal card to JAMES MEANS & CO., 41 Lincoln Street, Boston, Mass.

Florence Machine Company—I have used the Florence Oil Stoves at the "Home" for several years for cooking, baking, broiling, etc., with perfect satisfaction. The cost is hardly a tithe of the keeping a fire for the same work. I have also used three No. 3 Heating Stoves for heating in midwinter a room 40x40 feet, while the steam was shut off for repairs, with perfect success.

W. L. Douglas.
Dear Sir
The shoes came to hand on due time, and gave me an satisfaction as to the quality of stock. Having had considerable experience in the manufacture of boots and shoes for thirty-five years, I consider them to be the best for the money that I have seen. The question comes to me, how can you do it? Don't you think a shoe for $3 ? There is quite a number of the clerks in this office that I see them, who have been trying $5 or $6 for their shoes, instead to hand you an order for a pair. Yours
Frank E. Hall
